PROFESSIONAL EXPERIENCE

Full Stack Developer | NexGen Innovators, Delhi, India

Feb 2025 – Present

- Built the frontend and AI lead-capture flow for **fundassist.ai**. A WhatsApp chatbot qualifies visitors, then n8n hands them to an ElevenLabs voice agent or books an expert call, with every lead logged to Google Sheets. Brought in **300+ leads**, with about **70% converting to a callback**.
- Rebuilt **delhi-ivf.com** from React to **Next.js** to fix SEO and page speed issues. Added WhatsApp OTP verification before the enquiry form submits, which cut spam by about **80%**. The site now sends **100+ genuine leads a week** to LeadSquared.
- Built **sproutai.tech** on Webflow with GSAP scroll animations (delivered Aug 2026).

Frontend Developer | NexGen Innovators, Delhi, India

Dec 2021 – Jan 2025

- Built and maintained reusable React component libraries used across client projects, adding new components to the shared design system when needed.
- Improved load times on slower networks with lazy loading, dynamic imports and better state management, plus proper loading, empty and error states for API data.
- Developed **HL Giggs**, a headless WooCommerce store on Next.js with custom product pages and mobile-friendly dashboards.
- Developed a custom WordPress theme for **kcsshop.in** with a customer social login flow.
- Worked on other client projects including Omuni (site revamp), Art & Dine, Stashinggs, Guide2Go, Vision Media and Mink Lifestyle Retail, coordinating directly with clients and designers.

Jr. Web Developer | Delhi Web Master, Delhi, India

Aug 2020 – Dec 2021

- Built responsive, cross-browser websites with HTML, CSS, JavaScript and Bootstrap for 5+ clients.
- Turned design mockups into pixel-accurate, interactive pages using jQuery, working with the design team.
